

Sobuj:

Had

- ① How you submit in multiple conference?
- ② Not cite table in thesis.
- ③ Are you submitted anywhere?
- ④ Why you get more results from your based model? ④
- ⑤ Which attract work where?
- ⑥ Which feature are present in dataset. Told me some name.
- ⑦ What problem find out in abstract?
- ⑧ ~~Your~~ Why your objective is missing.
- ⑨ Are you compare with existing work?
- ⑩ From comparison table, what do you mean ovRate?
- ⑪ Objective should be 3/4/5.
- ⑫ Comparison with related work is (same type all)
- ⑬ No need to add more reference.
- ⑭ ~~Don't~~ include limitation future work in slide.

Murad:

- ① Which condition they provided to accepted.
- ② Fixed reference -
- ③ Compare with related
- ④ ~~Figure~~ Generic figure -
- ⑤ Difference between previous work and your work
- ⑥ ROC curve describe

ATIK

- ① Literature review -
- * Project Boss 2

* Don't submit same title paper in multiple center...

Mohabub

- ① Are you compared with same other model.
- ② Understand the equation -
- ③ Told the name of attack.
- ④ What is your focusing point.

⊗ Details know about Dataset

⊗ Q-LORA ? - Quantized LORA - What is quantization

~~⊗~~ ⑦ What is your contribution!

- ① If these is not statistically significant then what is your contribution
- ② How you compare when the base work is different.
- ③ Full form of model - / Result comparison table -
- ④ If your previous work is not publish then why you cite?
- ⑤ How many model are combine and compare.
- ⑥ Are you work with updated model.
- ⑦ You need to describe it as a believable statement.

Masud:

- ① Show the result.
- ② What are you proposed?
- ③ How work these method to classify attack.
- ④ Title is so important.

Result on Test set

- ⑤ Baseline compare, Ensemble strategy work -
- ⑥ About Hyperparameter (How many, describe,
